

TITLE OF THE EXPERIMENT

Your Name
(Student ID)

Experiment No. X

Date: DD-MM-YYYY

Abstract

Write the abstract/aim of the experiment in 3-4 sentences.

1 Theory

Write the concept and relevance of the experiment in **maximum** 6-7 simple sentences. Please avoid long complex sentences while writing.

2 Approach

Write the approach that you followed in the experiment. Necessary procedures, figures, or design diagrams can be included here.

3 Observations

1. Observation 1
2. Observation 2
3. Observation 3
- ⋮

4 Conclusions

Write major conclusions here.

5 References

Bibliography here, if any.

6 Code

Place the code here. This section is applicable for experiments that require coding. You can use the **listings** package to include your code in your document. [Click here](#) for more information.
